FEATURE STORY - turning the spigot back on in the water park hotel business: financial analyst Dan Martin's comprehensive report

ISTANBUL, TURKEY - POLIN Waterparks and Pool Systems announced the debut of its new King Cobra ride at Cobra Kingdom Waterpark at Maxx Royal, Antalya, Turkey. Cobra Kingdom Waterpark opened on June 2011.

King Cobra offers not only an intense and heart pounding experience to its riders, but also a stunning design and a one of a kind of visual to its spectators. The core feature of King Cobra is its unique configuration that enables two double tubes to race through a circular path with twists, turns, and surprises before experiencing the drop of their lives as they continue to race in the valley of the Cobra. This epic plunge is 8 meters down and allows the rider to accelerate to a speed of 51 km/h. Ugur Degirmenci, Project Engineer, Polin adds: "It does not end. The two double tubes are now heading into the mouth of Cobra. Unique fog, high-pitched hiss, water spraying, visual effects make it more exciting than ever while the spectators below think you are just "swallowed" in the mouth of the Cobra. Then powerful G-forces take over your tube and riders come back down and then oscillate up and down again as the tubes stop on down the waterslide. You come to the end of this unique riding experience. The new waterslide is both visually and in terms of riding experience just breathtaking."
