Cobra Kingdom opens in Turkey

MAXX Royal Golf and Waterpark Resort, located on the Mediterranean Coast, in Belek, Antalya, Turkey, opened its doors in May with a first-class waterpark, Cobra Kingdom.

The 400,000sq.m resort includes a wide range of waterslides and wet play attractions, including Space Hole, Black Hole, Kamikaze, Rafting Slide, two Twisters, Flying Boats, a Giant Body Slide and a kid-sized play area.

All eyes, however, remain firmly fixed on the major King Cobra waterslide. Developed and installed by Polin Waterparks and Pool Systems, MAXX Royal is the first venue to install this revolutionary ride. According to Polin, King Cobra offers one of the most "intense riding experiences of the industry while proving itself as the number one attraction in terms of visual impact and spectator appeal." With its unique design configuration, fibreglass theming, colouring and its unique riding path, the core feature of King Cobra is its configuration which enables two double tubes to race through a circular path with twists and turns.
